

CAPACITIES AND SPECIFICATIONS

MODEL	PM-80T-ANC
PUNCHING	
Punching Pressure	80 Ton
Maximum Capacity	ø30 x 15 mm
Throat Depth	310 mm
Maximum Stroke Length	100 mm
Cycles / Min. (15mm stroke)	28
Motor	7.5 HP
FEEDING SYSTEM	
Feeding Length (X-axis)	3000 mm or 6000 mm
Servo Motor	400-watt
Gear Speed Reduction	1:16 ratio
Accuracy	±0.1 mm per meter
FEATURES	
NC Control	1 axis
Program Storage	3 patterns (50 units per pattern)
Custom Holes	30 holes per unit
Angle Size Range	3" ~ 8"
Clamp Type	Pneumatic
Stripper	Hydraulic type
Standard Die Holder	O.D. ø45 mm
Die Holder Height	177 mm
Working height up to die	1050 mm

- Based on low carbon / mild steel material strength of 45kg/mm² tensile.
- Design and specifications are subject to change without prior notice.

Punching Machine With CNC Feeding System

For angles, channel webs, and flat plates

PM-80T-ANC

SUNRISE Fluid Power Inc.

PUNCHING MACHINE WITH CNC FEEDING SYSTEM

For angles, channel webs, and flat plates

The new version of ANC is a fully automatic single-axis in-feed system for punching angles, channel webs, and flat plates, available in either 3000mm or 6000mm X-axis travel distance.

The main frame of the ANC is a heavily proportioned machined structural steel tube that provides unmatched rigidity and quality, yet offers simple set-up, adjustment and maintenance.

The ANC features a hydraulic stripper as well as pneumatic material clamping for fully automatic operation. In-feed roller tables and support stand are included for full support of the material.

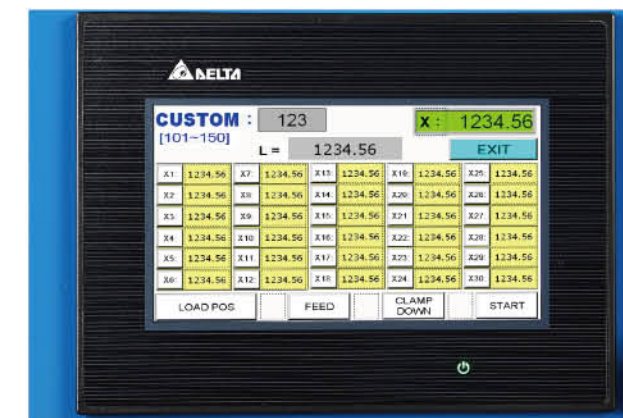

PM-80T-ANC

Specially designed strippers and punching accessories for processing a wide variety of materials.

The highly precise gear drive components provide high accuracy, high repeatability, and high efficiency.

The user friendly Delta 7" color touch-screen controller with pre-set patterns makes programming a simple task.
