

Trilogy Machinery Advantages

Since 2009, we have been committed to providing our customers the highest level of professionalism, integrity and service. This commitment is what helped us to achieve our reputation as a leader in the metal fabricating machinery industry.

Trilogy Machinery

Full Line Catalog

YOUR METAL FABRICATING MACHINERY SPECIALISTS

DEDICATION

Trilogy is a team of over 15 dedicated and energetic professionals ready to assist with your Metal Fabricating Machinery needs.

SOLUTIONS

We offer solutions to your Metal Fabricating Machinery needs. Our sales technicians are all factory-trained to assist with providing the correct machine for your job.

UNLIMITED SUPPORT

We service what we sell! Trilogy has a massive stock of spare parts and we also offer world renowned technical support by our factory-trained technicians. Customers get free phone support for the life of the machine.

NATIONWIDE DEALERS

In addition to the service and support provided direct from Trilogy, we also have an extensive network of local dealers that are ready to help with on-site service, sales and support.

Plate Bending Rolls | Angle Bending Rolls | CNC Systems

The Swedish bending roll company

- Highest quality bending rolls on the market
- Full range of three roll and four roll plate, angle and section bending machinery
- Powerful and user friendly SweBend 7 CNC Software designed for rolling
- Custom solutions perfectly matched to your requirements

Plate Bending Rolls

Unsurpassed value, proven reliability

- Three roll initial pinch and four roll double pinch plate rolls
- Machines available up to 10' long with capacities up to 9/16" thickness
- Direct-drive design with positive drive
- All roll movements are powered. Hydraulic drop end for easy part removal, powered tilt of the bending rolls, digital readouts, hardened rolls, spherical bearings are all standard features

Plate Bending Rolls

Heavy duty bending rolls at an affordable price

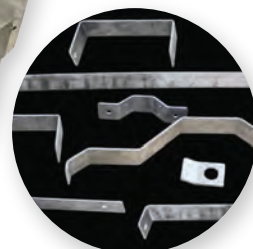

- Three roll and four roll double pinch plate bending rolls
- All hydraulic machines, drop end for easy part removal. Powered tilt of the bending rolls, digital readouts, hardened rolls and cone bending are all standard features

Horizontal Bending Machines

Ultimate Versatility, Integrated Programming, and Custom Tooling

- 45 and 82 ton models, including a 50 program touchscreen controller and digitally controlled stroke.
- 1 and 2 m CNC backgauge optional
- Wide variety of tooling including standard multi and single vee press brake style, pipe bending, flat bar bending, and many custom options

New HBM-Pro Model

Ironworkers
CNC Ironworkers | Processing Lines

The most popular brand of Ironworkers, Punching Machines, and Processing Systems

- Hydraulic ironworkers, punching machines. All available in manual or with CNC
- Single and dual operator designs
- Fully automatic processing systems for angle, plate, and channel
- Wide variety of optional accessories including press brake attachments, pipe notchers and oversize punching kits

Custom Tube and Pipe Punching Machines

Custom Tube Punching Machines

- Punching solutions for tube, extrusion, and other profiles since 1963
- Auto, Manual, and Multi-Tube configurations
